

K-Love radio station provides a great service to my community by broadcasting only family-friendly music and commentary. I believe this service is in the public interest because it allows families to have the radio on without concern over children hearing bad language and negative messages. My local community would greatly miss this station if it were to be displaced. I know many people who listen only to this station including myself. Thank you for taking into consideration the benefits of allowing K-Love to remain on the air.
